

Unlimited Access For Unlimited Opportunity

In today's competitive market, the success of your sales, marketing and recruiting efforts are often determined by the depth and scope of your contact data. However, most corporate data providers usually offer a preview of the business contact information and it is rarely the complete information that will help you succeed. Whether you need a few or thousands of business contacts, it's crucial to know what you're getting before buying or renting. With Jigsaw Unlimited, there is a better way.

Jigsaw Unlimited

Jigsaw Unlimited is a subscription-based service that gives you full and unrestricted access to Jigsaw's database of over 20 million complete contacts. Clicking through purchase screens or only seeing a preview of contact data are now a thing of the past. Jigsaw Unlimited allows you to see what you get, and that means name, job title company address, business email and phone number (70% direct dial). You will get the timely data which can dramatically improve your sales pipelines or lead to better targeted marketing campaigns.

Best of all, if you want to export a contact, it will cost a small price per contact for full ownership, eliminating expensive rentals. Therefore, Jigsaw Unlimited is ideal for recruiting, sales teams, marketers, and those who need large quantities of data for one low fee. The quality of data, convenience, and low costs could be why over 95 percent of Fortune 500 companies are using Jigsaw and saving an average of five million dollars a year in the process.

The Quality Of Our Quantity

Jigsaw's database is built and constantly updated by our global community of over 1,000,000 members who are rewarded for keeping data clean. The results are contacts of unparalleled accuracy. This unique self-cleansing system also removes marks dead (no longer valid) contacts that can cost time and money in undelivered mail, unnecessary phone calls, and bounce-back emails.

The quality of our contacts has shown proven results, as marketers have cut data and list expenses in half, doubled email open rates, and boosted response rates by 150 percent. Sales teams have enjoyed on average, 30 percent in improvements in lead-generation efforts, doubled sales call productivity, and 50 percent more net-new leads. Jigsaw data integrates into all major CRM systems, and is easily retrieved for future campaigns.

How It Works

Working with Jigsaw Unlimited is fast, easy and intuitive, with one simple solution, you can:

- Access the entire Jigsaw database.
- See every contact -- download only those you need for a small fee per record.
- Use it in conjunction with Jigsaw's Research Tab—the comprehensive business intelligence tool that makes Jigsaw a "one stop shop" for all your sales needs
- Save valuable time and effort by finding the right person the first time
- Use Jigsaw as your primary contact database alleviating the pain of a clogged database

As the number of business contacts and company profiles grows within Jigsaw's database, your prospecting options will increase significantly at no additional costs. You can prospect, email and direct mail from the records you see, making Jigsaw Unlimited ideal for heavy hitter prospectors, lead generation, HR and marketing users.

The Bottom Line In Business Research and Intelligence

Boost the power of Jigsaw Unlimited by using it in conjunction with Jigsaw's Research Tabs and Company Wiki, Jigsaw's free resources that deliver timely, inclusive business intelligence. These powerful tools can help sales professionals, marketers and recruiters easily research companies for lead generation, develop better-targeted marketing campaigns, and search for job candidates.
